Iron Supplement Packaging Checklist

Confirm the iron rule, closure records and warning label

Confirm before you order packaging

- ☐ Elemental iron per package calculated for every count you plan to sell
- ☐ Concentration confirmed against 0.05% (solids) or 0.025% (liquids)
- ☐ Colorant and low-iron powder exceptions checked
- ☐ Child-resistant closure chosen for each size, including packets and sachets
- ☐ Closure test records on file (16 CFR 1700.20)
- ☐ Certificate of compliance: who issues it agreed in writing
- ☐ Boxed iron warning on tablet and capsule labels, exact wording, hairline box
- ☐ Warning repeated on the outer carton, if any
- ☐ Component specs sent 30–45 days before the fill run (if you supply packaging)
- ☐ Re-check scheduled for any new count, formula or format
